This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein

Erasmus+

“The promotion of the use of the global network by senior citizens can contribute to the realisation of universal values embedded in the fundamental rights of the European Union – dignity, freedom, equality, solidarity, civic rights and justice”

Ewa Frackiewicz (2007), “The influence of the Internet on the activity of senior citizens from the point of view of the i2010 strategy for the building of the information society”, European University Institute in Florence

THE MAIN OBJECTIVE OF THE PROJECT

Is the development of a educational location-based game model, dedicated to seniors; as well as providing new knowledge that will inform educators working with elderly and the opportunity to use this model in the training of people in their late adulthood

THE PROJECT IS EXPECTING TO

- Provide more attractive programmes for elderly people in line with their needs and expectations
- Improve qualifications of teaching and training staff
- Obtain more effective activities for the benefit of local communities

LoGaSET

An Erasmus+ KA2 Strategic Partnership project for adult education, lead by

Featuring partner organisations
